Chemicals

Top chemicals for the life science and biotech industry

Meet your specific research and manufacturing needs

Offering the following custom services and solutions

Bulk chemical service

We can secure and manage the supply of semi-bulk and bulk volume products using either internal manufacturing or select partners worldwide through our extensive supply-chain network.

Returnable drum program

Ideal choice for handling large quantities of high purity solvents. From lab to production scale, our high volume delivery systems deliver solvents with enhanced safety and improved productivity.

Tailored solvents and solvent blends

Enable customization of solvents to your specifications.

Testing services

Our extensive in-house laboratory, QC capabilities and utilization of accredited external partners allows us to respond quickly to specific quality control testing at your request.

Special solutions

Special aqueous or non-aqueous solutions can be expertly manufactured to your exact specifications.

Customized packaging and labeling

Available in a wide variety of innovative packaging options designed for safety, environmental protection, convenient handling and storage and preservation of product integrity. Complies with all relevant regulations. Custom packaging is also available for chemicals supplied to you.
